

## Plug in and play.

With the choice of Rear Wheel Drive (RWD) or All Wheel Drive (AWD) electric powertrains, the EV9 opens your horizons to new adventures.

With 177mm of ground clearance, EV9's purpose-built EV platform can handle going beyond the blacktop.

The standard EV9 Light offers a potent 160 kW and 350 Nm of torque, while the dual motor, AWD EV9 Earth and GT Line models deliver 282.6 kW and a massive 600 Nm - taking you from 0 to 100 km/h in just 6 seconds.

The EV9 Earth and GT-Line add the surefooted confidence of torque-vectoring e-AWD, with dual motors delivering blistering acceleration and assured all-weather traction.

## Power your adventures.

# With ultra-fast charging, your EV9 won't be standing still for long.

EV9's multi- charging system accepts both 400 V and 800 V DC chargers, giving you access to hundereds of charging stations around New Zealand. Regenerative braking extends your range even further, while waste heat is recaptured to reduce winter range loss by almost 19% (grade dependent).

## Space capsule.

Inspired by Kia's 'Opposites United' design philosophy, the interior of the EV9 is a showcase of minimalist luxury.

The long wheelbase and flat floor create an ultra wide cabin with generous space for seven passengers to relax in comfort in three rows of seats.

A floating console houses two panoramic HD touchscreens, while Dual Zone Climate Air Conditioning maintains a perfect interior temperature.

The driver and front passenger enjoy heated and cooled seats with power adjustment and power lumbar support standard across the range. GT Line models add driver and front Passenger Premium Relaxation Seats with a memory power driver's seat as well as heated and ventilated second row outer seats.

Even with the seats up, there's still plenty of space for gear with an enormous 2,318 litres of space available when the 2nd and 3rd row seats are lowered.

### Fully loaded.

The EV9 has so much onboard technology it's amazing that it still has plenty of room for seven passengers.

From the moment you activate the EV9 using fingerprint recognition or your Smart Key, a suite of advanced systems are at your service to make driving effortless.

Two panoramic 12.3" touch screens, plus a 5" HVAC (Heating, Ventilation & Air Conditioning) screen displays satellite navigation and infotainment with effortless control via Apple Car Play™ or Android Auto™

On the road, the EV9's augmented reality, heads-up display projects key information, including speed, navigation guidance and lane safety information onto the windscreen.

All-electric drive and sound insulation combine to create a hushed and Zen-like cabin, perfect for enjoying the 8-speaker audio system or 14-Speaker Meridian® surround sound system in GT Line models.

On AWD models, the Surround View Monitor provides a zoomable, 360 degree view of your EV9 and its surroundings - a great confidence boost when manoeuvring in tight spaces or parallel parking.

Alternatively, simply leave it to the Remote Smart Parking Asssist on GT Line models to park your EV9 for you.

## Flying fortress.

More than 20 advanced driver-assistance and collision avoidance systems make the EV9 one of the safest vehicles on the road.

While reversing at low speed from a park, the EV9 warns you and assists with braking if it detects an oncoming vehicle. When you exit the EV9, Safe Exit Assist will warn you and if necessary, keep the door locked if it detects a vehicle approaching from behind in the blind spot.

On the open road, Smart Cruise Control (SCC) with Stop & Go uses radar sensors and a camera to maintain a safe distance from the vehicle directly ahead while a trio of anti-collision systems scans for pedestrians and oncoming vehicles at intersections.

## The journey to sustainability.

Kia's vision to become a Sustainable Mobility Solutions Provider involves finding solutions that will move the world forward in a way that reduces our impact on the environment.

We're striving to reduce our environmental impact across the entire lifespan of our products. That includes rethinking traditional ideas of luxury by introducing vegan leather in all of our EV vehicles.

The EV9 demonstrates how these materials can be turned into purposeful and beautiful materials, making extensive use of sustainable, bio-based plastics and foams and upcycled materials, including plant based fibres and ocean plastic waste. Recovered fishnets are transformed into luxurious flooring, eucalyptus leaves are used to form the headliners while seats and interior fabric are made from a composite of recycled plastic bottles and wool fibres.

Of course as you relax in the luxurious interior of EV9, you won't notice any of this sustainable technology. That's how inspiration becomes innovation.

## Colour inspired by nature.

Personalise your EV9 in exterior colours inspired by nature: Light, Air, Earth and Water. Our BTX-free paint process offers a high-quality protection and finish while minimising the use of polluting chemicals.

#### $Information\ contained\ herein\ is\ for\ comparative\ purposes\ only.\ Specifications\ at\ any\ given\ time\ may\ vary\ to\ the\ above.$

- Driving range figures standards are calculated using the World Harmonised Light Vehicle Test Procedure (WLTP). Actual results achieved will differ according to operating conditions and driving style.
- \* Charging times of the high voltage battery may vary according to the condition and durability of the high voltage battery, charger specifications and ambient temperature.
- \*\*\* Not all handsets may be compatible..
- Maximum Towing Capacity should only be achieved when the battery has more than 35% charge remaining
- Apple CarPlay: Requires an iPhone 5 or later and it is recommended to always update your iPhone to the latest iOS release. Use the Apple Lightning cable provided with your phone, or Apple certified Lightning cable.
- † Android Auto: Requires an Android phone with Android 5.0 Lollipop or higher. It is recommended to always update your phone to the latest OS release. Use the USB cable provided with your phone.

#### Kia cannot guarantee continued compatibility.

### Kia confidence goes further.

All new Kia Passenger Vehicles come with an impressive 5-Year/150,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

All new Kia vehicles that are powered by a high-voltage drive battery come with a 8-year/160,000 km (whichever comes first) warranty that covers components found in the drive battery case. In the event that your vehicle becomes immobile due to a high voltage battery or system failure, we'll cover the cost of the tow to the nearest authorised Kia dealer.

If you and your new Kia were unfortunately involved in an incident or crash that requires body repairs to your Kia, Kia Incident Care is here to help you, and is free for the first five years.

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be dispatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.
