SWIFT

Step up your style

A style icon from every angle, the new Swift's distinctive sassy curves flow through clean lines to the floating roof. Its hidden pillar-mounted rear door handles add a sporty coupé look with 5-door practicality. Rolling on crafted 16-inch alloy wheels with LED daytime running lamps, the Swift is all about making an impact and loving the attention.

Break out the moves

Pack your bags for an adventure in the new Swift. You'll enjoy the journey as much as the destination with its cleverly designed, roomy cabin. With ample storage spaces and flexible seating and luggage space it's perfect for getaways, shopping sprees and those pick-ups and drop-offs. Take who you want – and what you want, and have all the fun!

The Swift delivers performance you can feel – quick acceleration, planted cornering and smooth suspension. It's everything you want as you face a sweeping bend or wide open road. The nimble platform combined with the powertrain responds with instant execution and extraordinary fuel economy, making Swift an absolute dream to drive.

LIGHTWEIGHT AND STRONG PLATFORM The Swift's HEARTECT platform features a state-of-theart, high-rigidity frame with a smooth continuous shape that effectively disperses impact energy in a collision. Fewer joints and the use of high-tensile steel dramatically reduces the vehicle weight; improving the Swift's

performance and fuel consumption.

BOOSTERJET TURBO

The advanced 1.0 BoosterJet direct injection turbo engine of the Swift RS creates torque on par with a naturally aspirated 1.8-litre engine from low revs, making it perfect for a wide spectrum of driving situations.

TRANSMISSION: 6-stage automatic POWER: 82 kW TORQUE: 160 Nm FUEL: 5.1L/100 km combined NEDC CO2: 119 g/km NEDC

DUALJET VVT

The Swift GL 1.2 VVT engine is optimized for superior fuel economy and smooth performance across the rev range.

TRANSMISSION: 5-speed manual or CVT POWER: 66 kW TORQUE: 120 Nm FUEL: 4.6 - 4.8 L/100 km combined NEDC CO2: 106-110 g/km NEDC

Advanced Forward Detection System

To help support your safe driving, the Swift RS is equipped with Suzuki's Advanced Forward Detection System.* This employs a state-of-the-art monocular camera, laser sensor, and millimetre-wave radar with the aim of aiding the driver to avoid a collision or mitigate the damage.

The Advanced Forward Detection System includes:

- Dual Sensor Brake Support (DSBS)
- Lane departure warning
- Weaving alert
- Adaptive cruise control
- Headlamp high beam assist

DUAL SENSOR BRAKE SUPPORT (DSBS)

The monocular camera 'sees' mid-to-long distance and can detect pedestrians. Swift's laser sensor is for short-distances and at night. Using information from these sensors Swift can detect a potential collision and act in any of the following ways depending on the situation (RS).

LANE DEPARTURE WARNING

At 60 km/h or faster the Swift predicts your course and if you drift, vibrates the steering wheel and gives you a visual warning (RS).

1. Alerts the driver with an audio warning and visual warning.

2. Deploys brake assist to increase braking force if the risk of collision is high and the driver panic brakes.

3. Applies strong automatic braking if the risk of collision increases even more.

WEAVING ALERT

This system calculates your driving pattern and issues audio and visual warnings if it detects you're 'wandering' due to driver fatigue, for example (RS).

ADAPTIVE CRUISE CONTROL

The adaptive cruise control system uses millimetrewave radar to automatically maintain your following distance depending on the setting selected and vehicle speed (RS).

HEADLAMP HIGH BEAM ASSIST

At 40 km/h or faster, Swift's high beam assist can automatically switch the headlamps between high and low beam depending on the presence of other vehicles and the lighting environment (RS).

PARKING SENSORS

Parking is safer and easier with ultrasonic sensors in the rear bumper that detect obstacles and send you a warning you can both see and hear (RS).

ESP® AND ABS WITH EBD

When braking, the Swift automatically modulates the force applied to each wheel to provide the optimum amount of pressure and bring the car to a safe, controlled stop. There's also Electronic Stability Programme or ESP® to help you stay in control when you're cornering by counteracting under and oversteer. This also improves traction and reduces the possibility of skidding.

BLIND SPOT MONITOR REAR CROSS TRAFFIC ALERT

Lane changing at speeds above 15 km/h is made safer by two rear mounted side radar sensors capable of detecting vehicles located in or approaching the rear blind spots on either side of the vehicle. When a vehicle is detected a warning LED icon is illuminated in the exterior mirror. If the driver indicates to change lanes, a flashing LED icon is accompanied by a warning sound alert (RS).

This assists the driver to manoeuvre more safely out of parking spaces where vision is obscured. When reversing, at speeds of up to 8 km/h, the vehicle uses two rear mounted side radar sensors to assist the driver to manoeuvre more safely out of parking spaces where vision is obscured. When reversing, at speeds of up to 8 km/h, the vehicle uses two rear mounted side radar sensors to assist the driver to manoeuvre more safely out of parking spaces where vision is obscured. When reversing, at speeds of up to 8 km/h, the vehicle uses two rear mounted side radar sensors to assist the driver by alerting them of approaching vehicles on either side. The driver is given both a visual alert on the multi information display and a warning sound (RS).

Make it your own

Get creative and add those unique personal touches with plenty of cool accessory options available to choose from. Go wild on the exterior with front, lower side and rear spoilers, protective mouldings, contrasting body striping kits and more. Take it one step further inside with a range of subtle enhancements to make your Swift a whole lot more special.

ACCESSORIES

For the current range of optional accessories, go to suzuki.co.nz/swift or discuss with your local Suzuki dealership.

A little goes a looooong way

In a new Suzuki, your smile will be stuck on high beam as you zip around. You may even let out a giggle, or wave when you spot another.

Not only are Suzuki cars and SUVs fuel efficient – they are affordable, safe and sooooo much fun to drive. With our advanced small engine technology and innovative design, you'll get loads of value without compromising performance, and with Suzuki's longstanding commitment to fuel economy, a little really does go a long way.

So turn every journey into a joyride with Suzuki. Let us help you find the one that suits your lifestyle and needs, with an ownership experience second to none.

Supporting our community

We support those things Kiwis care about; the organisations and worthy causes making a difference to New Zealand lives. Suzuki is honoured to get behind these passionate people and fun events which make a difference in our community.

WHĀNAU ĀWHINA PLUNKET

Whānau Āwhina Plunket is Aotearoa's largest support service for the health and wellbeing of tamariki under-five and their whānau. They see around 85% of all newborn babies and provide free health and development checks, a 24/7 parenting helpline, and a range of local services. Support staff and nurses use a combination of Swift Hybrid and S-Cross vehicles for home visits and other business.

LEUKAEMIA & BLOOD CANCER NZ

With a vision to cure and a mission to care, this amazing organisation works tirelessly helping everyday Kiwis come to terms with leukaemia, lymphoma, myeloma and related blood conditions. Their frontline staff cover more than 50,000 kilometres in their brightly coloured Suzukis; providing patients, their family and friends with emotional and practical support.

AA DRIVING SCHOOL

With over 1.7 million members, the AA is New Zealand's largest automobile club. Their driving school is one of the most respected in the country and includes programmes for drivers of all levels. Thousands of kiwis have learnt to drive or improved their skills in the school's fleet of modified dual control Swifts. Swift's 5-star safety, agility and easy handling make it the perfect choice for learners.

MAKING DRIVERS SAFER

To help make our roads safer for everyone, Fleetcoach has developed a virtual driver training programme for employers to identify, train and upskill their staff. State-of-the-art interactive videos put drivers behind the wheel of a Suzuki, allowing them to identify driving hazards and improve their road safety skills online.

REAL VALUE

Real Value isn't just about sharp pricing, it's about worry-free enjoyment of your new Suzuki and protecting its on-going value.

5 YEAR WARRANTY PACKAGE

A comprehensive 3 year/100,000 km new vehicle warranty. This covers your entire vehicle for the most important part of its lifecycle and includes a 2 year powertrain warranty extension for a total of 5 years worry-free motoring.

5 YEAR SUZUKI ASSIST

This is one of New Zealand's most comprehensive roadside assistance programmes. It has you covered all day, every day for 5 years from when you first buy your Suzuki – no matter how many kilometres you travel.
